$$\frac{N}{2} = \frac{70}{2} = 35$$

$$\begin{aligned} \text{Median} &= l + \frac{\frac{N}{2} - C}{f} \times h \\ &= 201 + \frac{35 - 13}{27} \times 1 \\ &= 201 + \frac{22}{27} \\ &= 201 + .81 \\ &= 201.81 \end{aligned}$$
