

6.

| wt. more than or equal to | no. of packets |
|---------------------------|----------------|
| 200                       | 70             |
| 201                       | 57             |
| 202                       | 30             |
| 203                       | 12             |
| 204                       | 2              |
| 205                       | 1              |

$$\frac{N}{2} = \frac{70}{2}$$
$$= 35.5$$
