

①

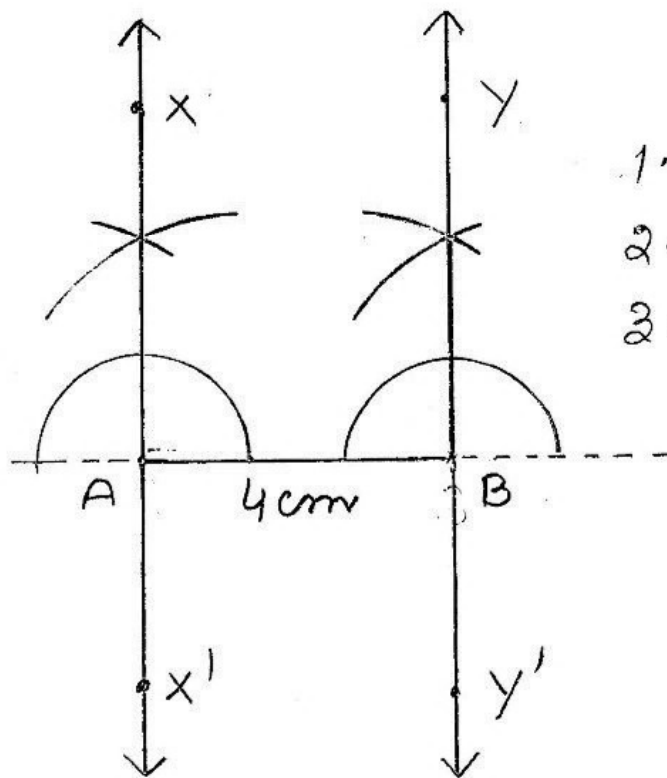

$\angle AOB = 110^\circ$

$\angle AOP = \angle BOP = 55^\circ$

Steps

1. draw  $\angle AOB = 110^\circ$
2. with centre O and any radius draw an arc NM.
3. with centres M and N and equal radii draw arcs inter. each other at P
4. join OP

②

Steps

1. draw  $AB = 4\text{cm}$
2. draw  $XX' \perp AB$
3. draw  $YY' \perp AB$

yes  $XX' \parallel YY'$
